Sunday, April 13, 2008

Abstract: 1354 (Chisa Nagakura et al.)

Treatment of an orthotopic human pancreatic tumor with a modified *Salmonella typhimurium* in nude mice

Sunday, April 13, 1:00pm

Session: Experimental and Molecular Therapeutics 7

Abstract: 1355 (Katsuhiko Hayashi et al.)

Targeting of primary lung metastasis of high-grade osteosarcoma in nude mice with a modified strain of *Salmonella typhimurium*

Sunday, April 13, 1:00pm

Session: Experimental and Molecular Therapeutics 7

Abstract: 1356 (Katsuhiko Hayashi et al.)

Cancer metastasis cured by specific targeting of a modified *Salmonella typhimurium* strain

Sunday, April 13, 1:00pm

Session: Experimental and Molecular Therapeutics 7

Abstract: 1357 (Hiroyuki Kishimoto et al.)

Selective GFP labeling of liver metastasis in nude mice by the telomerase-specific replication-competent adenovirus expressing GFP (OBP-401)

Sunday, April 13, 1:00pm

Session: Experimental and Molecular Therapeutics 7

Abstract: 1358 (Hiroyuki Kishimoto et al.)

Telomerase-dependent adenoviral GFP targeting of disseminated human tumors in nude mice for surgical navigation

Sunday, April 13, 1:00pm

Session: Experimental and Molecular Therapeutics 7

Abstract: 1359 (Hiroyuki Kishimoto et al.)

Selective in vivo labeling of peritoneal disseminated colon cancer with a telomerase-specific replication-competent adenovirus expressing GFP (OBP-401)

Sunday, April 13, 1:00pm

Session: Experimental and Molecular Therapeutics 7

Sunday, April 13, 2008

Abstract: 1360 (Clinton Yam et al.)

Targeting a modified *Salmonella typhimurium* strain to pancreatic cancer liver metastasis

Sunday, April 13, 1:00pm

Session: Experimental and Molecular Therapeutics 7

Abstract: 1362 (Ming Zhao et al.)

Efficacy of chemotherapy enhanced by targeted bacterial delivery of a prodrug-converting enzyme to a human colon tumor in nude mice

Sunday, April 13, 1:00pm

Session: Experimental and Molecular Therapeutics 7

Abstract: 1361 (Ming Zhao et al.)

Human patient colon cancer growth is inhibited by a genetically modified *S. typhimurium* in nude mice

Sunday, April 13, 1:00pm

Session: Experimental and Molecular Therapeutics 7

Abstract: 1363 (Nabil Arrach et al.)

Salmonella promoters preferentially activated inside tumors

Sunday, April 13, 2008, 1:00pm

Session: Experimental and Molecular Therapeutics 7

Monday, April 14, 2008

Abstract: 1945 (Michele McElroy et al.)

Isolation and characterization of a high metastatic variant of human pancreatic cancer

Monday, April 14, 8:00am

Session: Tumor Biology 15

Abstract: 2069 (Christof Granzow et al.)

Prolonged survival and altered response to chemotherapy in athymic but not in SCID-beige mice bearing orthotopically transplanted H69AR lung tumors

Monday, April 14, 8:00am

Session: Immunology 3

Abstract: 2739 (Farida Al-Awadi et al.)

Human cancer growth in the nude mice model is associated with impaired metabolism of the methionine cycle

Monday, April 14, 1:00pm

Session: Cell and Mole Biology 33

E-MAIL: all@anticancer.com
www.anticancer.com

Tuesday, April 15, 2008

Abstract: 3732 (Katsuhiko Hayashi et al.)

An imageable nude-mouse treatment model of metastatic paralyzing spinal-cord cancer

Tuesday, April 15, 8:00am

Session: Tumor Biology 30

Abstract: 4200 (Wei Tan et al.)

The role of RANK-signaling in breast cancer development and metastasis

Tuesday, April 15, 10:00am

Session: Tumor Biology 33

Abstract: 4527 (Meng Yang et al.)

A transgenic red fluorescent protein-expressing nude mouse for color-coded imaging of the tumor microenvironment

Tuesday, April 15, 1:00pm

Session: Tumor Biology 36

Abstract: 4530 (Michele McElroy et al.)

Color-coded imaging of splenocyte-pancreatic cancer cell interactions in the tumor microenvironment

Tuesday, April 15, 1:00pm

Session: Tumor Biology 36

Abstract: 4539 (Kensuke Yamauchi et al.)

Imaging of nucleolar dynamics during the cell cycle of cancer cells in live mice

Tuesday, April 15, 1:00pm

Session: Tumor Biology 36

Abstract: 4541 (Huaiyu Ma et al.)

Imaging trafficking of cancer cells in the bone

Tuesday, April 15, 1:00pm

Session: Tumor Biology 36

Abstract: 4543 (Michele McElroy et al.)

Primary and metastatic pancreatic cancer imaging using fluorophore-conjugated anti-CA19-9 antibody

Tuesday, April 15, 1:00pm

Session: Tumor Biology 36
